

Nordic Aviation Group

Environmental Policy

Nordic Aviation Group AS is a group of companies consisting of Nordica and Xfly. Commercial airline Nordica operates scheduled flights in the Baltic States and Scandinavia. Xfly is a long-term strategic capacity provider for commercial airlines in Europe.

Nordic Aviation Group aims to work in an energy efficient and sustainable way. This document represents the nature conserving values we promise to uphold.

We promise to:

1. Raise environmental awareness among our employees and customers.
2. Support biodiversity and oppose deforestation by reducing paper usage on board and in the office.
3. Support the Destination 2050 program to help reduce carbon dioxide emissions in aviation industry and become carbon neutral by 2050.
4. Promote and take part in environmental campaigns.
5. Use all resources such as electricity, water etc. sustainably.
6. Focus on reducing waste and constantly improving waste management.
7. Restrict and reduce the usage of disposable plastic products on board and in the office.
8. Minimize the usage of pollutants and environmentally hazardous substances.
9. Optimize our flight procedures to be more fuel efficient.
10. Invest in efficient aircraft utilization.
11. Apply environmental criteria in purchasing procedures.
12. Cooperate with our partners on environmental regulations.

In addition to the previously mentioned topics Nordic Aviation Group is constantly looking for new ways to limit negative impact on the environment. We are ready to adapt to the sustainability requirements set by the regulators and European Aviation Industry.
